

STUDENT CHAPTER POINT SYSTEM

Save the Children of the Developing World

September 19, 2020

All SCDW Student Chapters can participate in an academic year-long competition with the goal of attaining the most points. The student chapters earn points for completing different tasks that are each worth a different amount of points. At the end of the academic year, the student chapter that has earned the most points will have the opportunity to choose from a variety of prizes that will be awarded to all active members of said chapter. The prizes may change from year-to-year and will be made known to the student chapters closer to the end of the academic year. As the year advances, this document will be updated regularly to display the progress of all the chapters.
